

ClientSome

Decode your Customers

Every business has its own set of unique challenges which require systematic approach and timely addressing, failing to do so can cause customer attrition, rising overheads, leakages, missing out on potential business, and unexpected losses.

ClientSome helps you effectively manage your business by integrating best in class ERP & CRM management system with frontend client interfaces such as website, self branded mobile apps and social media channels.

CLIENT CHALLENGES

- 1. Low sales/ revenue growth while incurring huge monthly costs**
- 2. Unable to reach actual customers - showcase services, quality/products to target customers**
- 3. Unable to maintain customer loyalty & enhance branding**
- 4. Losing customers to high competition/ high revenue share with tech companies like Urban Clap**
- 5. Limited automation leading to operational leakages owing to manual work**
- 6. Wrong technology partner selections & non-delivery**
- 7. Incapable team, with limited support in securing appointments**
- 8. Limited ways to track customer satisfaction & employee efficiencies**

OUR ENGAGEMENT STEPS

Robust system with no need for multiple vendors,
ClientSome is your one stop solution.
